LOCKER INFORMATION

LOCKER COMBINATION - Your locker combination is printed on your schedule.

Example:	**R**	**L**	**R**
	14	**28**	**20**

a. Spin the dial completely around to the right two times. This clears the lock.
b. Spin the dial to the right, stopping at 14.
c. Turn the dial to left, passing 14, and then stopping at 28 on the next turn.
d. Turn the dial to the right and stop at 20.
e. Lift the latch or pull to open the locker.

For students with “B” lockers: to open, turn lock dial right past last digit in the combination and pull open. You must go past the last digit in order for it to open.

Note: try your locker combination at the first opportunity. If it will not open, report it to the main office. To prevent theft, do not share your locker or locker combination with anyone. Do not "set" your combination to open. See the Student-Parent Handbook for other important information regarding lockers.
